

## **PART B: DETAILS OF YOUR VARIATION**

**Regulation 77 – Impermeable surface area does not comply** 

Existing impermeable surface area  Proposed impermeable surface area (including existing area)  Step 2. Please provide reasons to support your request  Note: Council's approval of a variation is determined by its compliance with the Minister's Guidelines. The fields below address each of the decision guidelines that Council must consider in deciding whether to approve or refuse your variation request.  The objective of Regulation 77 is to reduce the impact of increased stormwater run-off on the drainage system and to facilitate on-site stormwater infiltration.  Please provide your reasoning on how your variation will meet this objective:  a) The amount of impermeable surfaces would be consistent with that of existing development on the allotment. (If applicable)
