

Home Care Packages with Colac Otway Shire: *“Caring for the Growing Needs of Our Community”*

Maintaining your independence at home

Maintaining your independence at home – A Home Care Package is Government funding to pay for in-home services for elderly Australians. This enables you to stay in your home for longer and delay moving into a nursing home early, or at all.

A Consumer Directed Care (CDC) Government Subsidised Home Care Package is one where you, the consumer, has the right to make decisions about the support you need. Our expert Home Care Packages Team can help you gain more out of your Home Care Package and will assist you in selecting the services that suit your care needs.

A Home Care Package with Colac Otway Shire Council will provide you with more choices and service options, seven days a week. An individualised care plan will allow you to utilise the services and supports you require, giving you more funds to use from your package.

Local, Reliable & Friendly

What are the differences in Home Care Packages?

There are **four levels** of Home Care Packages assigned by the Commonwealth Government to provide you with assistance.

HCP Level 1

Helps people with **basic care** needs.

HCP Level 2

Helps people with **low level care** needs.

HCP Level 3

Helps people with **intermediate care** needs.

HCP Level 4

Helps people with **high care** needs.

A Home Care Package with Colac Otway Shire Council gives you access to many types of individualised and flexible supports, available in the security of your own home.

Contact Colac Otway Shire Council on
5232 9549 (Kylie) or 5232 9404 (Min) to discuss how
we can create the right package for you.
