

Career Driven?

Thinking of changing direction? The duplicated highway makes it easier than ever to commute and Colac's industries and businesses are offering exciting opportunities for career growth.

CMTP is a family owned and operated business that commenced operations in 1976.

We provide “product protection and movability solutions” to a range of industries such as food, automotive, building supplies, fresh produce and exporters.

It's CMTP's desire to have a business that provides stimulating, rewarding and career enhancing employment opportunities for all staff.

This is achieved by training and engaging our employees to be the drivers of our organisation so they will be regarded as leaders in the industry and leaders in self management.

We have various opportunities for the right people to pursue roles as, production operators, production managers, human resources, quality managers, fitters and more.

If you would like to work for CMTP and join an innovative and growing business please make contact today and express your interest in joining the team.
